EXPERIENCE

Software Development Engineer · FreshBus

Sep 2024 — Present · Hyderabad

- Build and maintain the customer-facing **bus booking platform** — search, seat selection, checkout and booking management flows used by travelers daily.
- Develop **internal operations dashboards** for routes, fleet and booking administration, cutting manual ops effort across teams.
- Design and ship **backend REST APIs** and third-party integrations with Node.js and TypeScript, focusing on reliability and clean contracts.
- Own **deployments and cloud infrastructure on AWS**, including serverless services, CI-driven releases and environment management.

MERN Stack Intern · SyllogisticsAI

Nov 2023 — May 2024 · Hyderabad

- Developed full-stack applications with **MongoDB, Express, React and Node.js**, contributing to scalable, production web products.
- Implemented **RESTful APIs** and integrated third-party services, strengthening backend and API-integration skills.
- Collaborated in a team following engineering best practices — version control, code reviews and sprint planning.

PROJECTS

SRYTAL Resource Management — srytal-client.vercel.app · React, TypeScript, Node.js, Vercel

- Built a resource management platform — employee onboarding, resource allocation and tracking workflows — with a type-safe React frontend.

Code For Digital India — codefordigitalindia-syed.netlify.app · MERN, AWS S3, Mantine

- Internship management platform with user/admin dashboards, resume uploads to AWS S3, email-verified onboarding, task assignment and status tracking.

JobHunt · React, Node.js, Express, MongoDB, JWT

- Job portal with job/company browsing, filtering, pagination, application tracking and JWT authentication behind a Material UI interface.

ASK-PDF · Python, LangChain, LLMs

- AI document assistant — upload any PDF and ask questions in natural language to get instant, context-aware answers.
